DOMO Capital Announces David Ribbens as new Partner

Germantown, WI – August 2, 2018

DOMO Capital Management is pleased to announce that David Ribbens has become Partner. Mr. Ribbens brings 35 years of experience to DOMO, where he will advise Founder and President Justin Dopierala on general business matters with particular emphasis on distribution, as the firm transitions into a growth mode.

Mr. Dopierala asserted, “I am delighted to have Dave join me as a partner. The caliber of professionalism and expertise he brings will enhance and build upon what we have done historically, which has always been focused on effectively managing clients’ portfolios. We eagerly anticipate our 10-year anniversary later this year, and telling the story more broadly about how we have outperformed the market while mitigating downside risk. Dave is the right professional to help us continue this work.”

Mr. Ribbens, 57 and a graduate of Lawrence University, retired from his position as President and Head of Distribution at a boutique investment management firm early in 2016. In 2017 he joined the Northwestern Mutual Series Fund Board as an Independent Director, and founded his consulting practice. He is active as an angel investor, and serves on the Advisory Board of CraftFund, the only Wisconsin-based crowd equity funding platform. Dave resides in Sturgeon Bay, WI.

Dave adds this thought: “While uncommon, there are a few men and women who have the right temperament and work ethic to be effective as active managers. Justin has proven himself in this regard, as the DOMO Concentrated All Cap Value earned 19% annually since inception through June 30, 2018, compared to 13.3% per year for the S&P 500 over the same period. However, what I find most compelling is how he achieved this record. Based on quarterly holding periods, Justin achieved an upside/downside capture that shows meaningful protection during difficult periods: The composite captured 111% of the benchmark’s return in rising markets, but only 61% during periods when it fell. Highly diversified portfolios are often perceived as safer, but Justin’s record demonstrates how a concentrated portfolio can be beneficial in both good and bad markets.”
